"I greatly appreciate Leah's outstanding work at CESSON and organization when it comes to managing our social media. It's refreshing to see a fully developed content plan for both our website and social platforms. I especially value her creative, outside-the-box thinking—like introducing video content featuring our staff—which has brought a fresh perspective and elevated the quality of the content we produce."

Pilot Painting &
Construction

"Working with CESSON is an amazing experience from start to finish. I reached out to them after we had a bad experience with another developer who left our company website in shambles. CESSON was easily able to pick up the pieces and help my team develop a new website. (...) What I really liked about the website development process was that we had monthly meetings where the CESSON team would give us a status update and address any questions, comments, or concerns we had. It was a great way for all of us to stay on the same page and push us toward the finish line of launching our new website. The entire team at Pilot is very proud to show off our new website and we would highly recommend CESSON to anyone looking to improve their online presence in a major way!"

The Music Oasis

"It has been wonderful working with Philippe and the amazing team at CESSON, an incredible digital marketing company. As Greg Dayton and I moved forward in developing the idea of "The Music Oasis," we knew we had to find a partner to help create, develop and image the concept. Team CESSON did just that! Taking one of our videos close to 1 million views in less than a month has been incredible to see! Creating a community via social media and helping us build a brand that we know and feel is needed, CESSON has helped Greg and me envision a creative space that can have a deep and meaningful impact on the world.

Thank you Philippe, Mary and the entire CESSON team!"
